Days of Elegance

CHÂTEAU ST. GERLACH

In the 12th century, the hermit Gerlachus retreated to the Geul Valley to pray and make regular pilgrimages to the tomb of Servatius of Maastricht. After Gerlachus's death and canonisation, his grave became a pilgrimage destination, and a monastery and church were built in his honour.

Today, nearly 1,000 years later, as a hotel and restaurant, Château St. Gerlach is now part of the famed Relais & Châteaux group. US President George W. Bush and the Rolling Stones are just two of the hotel's famous guests. The grandeur of the castle, surrounded by authentic outbuildings, vast and lush parks, gardens and vineyard, will serve as the stage for the first edition of InterClassics Days of Elegance on 18 and 19 June 2022.

The InterClassics Days of Elegance organisers are working hard to make it the most exclusive car event in the Netherlands. Participants and visitors will be showered with the hospitality the South of the Netherlands is famous for, while also being able to admire the most unique cars and luxury lifestyle products. Nothing is being left to chance when it comes to positioning the presentation and quality of the event organisation at the highest level.

The cooperation with our partners will enable us to put on a high-quality event with international allure. This brochure provides detailed information on the different ways you can participate. We would be happy to tell you more about what InterClassics Days of Elegance has to offer and look forward to a fruitful partnership!

PARTICIPATION IN five classes

INTERESTED IN PARTICIPATING?

It is possible to participate in the InterClassics Concours of Elegance in five classes. You can register using the form in this brochure. It is possible to enter one car in more than one class if the car is eligible for this.

It's also possible to register more cars to participate. Your registration is final after approval by our InterClassics Committee and receipt of confirmation from the organisation. The participating cars will be judged during InterClassics Days of Elegance by a renowned and international jury.

We are pleased to present the five classes of the InterClassics Concours of Elegance 2022:

1 GENTLEMAN'S THOROUGHBREDS

(Elegant Sports Cars – period 1950-1980)

An exquisite selection from a period spanning three decades when cars still differed considerably in style and shape. Belonging to 'gentleman drivers', these cars reminded everyone of times long past, and the great history and unique stories that automatically arose.

2 UNTOUCHED & PRESERVED

(Period until 1960)

These stories are cropping up more and more in the media. After all, who doesn't dream of discovering a forgotten gem, cars transformed by time into something sacred. It is not uncommon for the cars in this category to become even more beautiful by the undisturbed weathering of the materials. Make no mistake, the highest-scoring cars in this class are the most original and best preserved.

3 WHEN COACHWORK BECOMES ART

(Period until 1960)

These cars originate from the time that automobile designs were still born on paper, and not created using computer software. This selection shows that the breathtaking coachwork of these cars easily qualifies them as 'art'. Elegance and form are the norm, and the quality and savoir faire are practically unrivalled. Unique and timeless, every model in this class will move everyone, each with its own story.

4 RACING LEGENDS

(Period until 1980)

Customised, raw and austere! This collection of successful original racers is the result of a determined search through the history of many circuits and collections. Super efficient for racing, these powerhouses have played a huge role in the improvements and designs of our everyday cars. They are intended to be cherished and relived, but be warned: dreams of a spin on a legendary circuit are a likely side effect! In this setting, the nature of the beast definitely comes into its own, patiently waiting for the next race.

5 FUTURE CLASSICS & SUPERCARS

(Period 1980 – present)

These cars from a recent past, present and future have just one thing in common: they are always the jewel in the crown, unique, and every car lover wants nothing more than to own and drive them. The collection is valued for its originality, rarity and exotic qualities. Each and every one of these cars would not be out of place at a chateau like St. Gerlach.
